Card Width

The card width is directy related to the grid layout columns. It is defined by the number of columns. Only 4, 6, 8 and 16 columns cards will have a spot illustration. For 2 columns cards, only text will be shown but not an illustration.

On the right shows an example of XL Desktop cards width.

4 Columns

6 Columns

8 Columns

16 Columns (Full screen card)

Card Height

The card height would change depends on the content. The margin and padding stay the same.

*** On the right shows an example of card height changing because of the content, but the margins and paddings are the same for both cards.***
